

DRUG AUTHORIZATION REQUEST FORM

COMPLETING YOUR FORM...

To ensure prompt processing of your request, please complete the following Drug Authorization Request Form in full. Note that there are sections that must be completed by you, the patient, and sections that must be completed by your prescriber. Once completed, submit the form to Entente Plus via your method of choice:

By email: drugspecial.autho@ententeplus.ca

By fax: 1-866-797-6483

By mail: Entente Plus, Drug Special Authorization Team,
P.O BOX 1606, Windsor ON N9A 6W1

Note that submission of an incomplete form may result in delays.

Your request will be reviewed and evaluated by our Drug Special Authorization Department who will share the results with you. Should you have any questions, call Entente Plus's Contact Centre at 1-800-361-9888.

OTHER DRUG COVERAGE...

If you are eligible for coverage by another plan (public or private), indicate that in Section 1B of the authorization form.

If you have provincial drug coverage, please ensure that your prescriber has applied for coverage under your primary provincial drug plan. The result of that application must be attached to the completed Special Authorization Request Form.

SECTION 2C – DRUG REQUESTED FOR EVALUATION

Initial approval:

For use as an adjunct to diet, exercise, and maximum dose of metformin or a second antihyperglycemic medication to improve glycemic control in adult patients with type 2 diabetes mellitus when diet and exercise plus maximal dose of metformin or a second antihyperglycemic medication do not achieve adequate glycemic control.

Reimbursement of oral semaglutide (Rybelsus) will only be considered under exceptional circumstances. A detailed explanation outlining the rationale for why injectable semaglutide cannot be used for this patient must be provided. Examples may include severe needle phobia; hypersensitivity or allergic reaction to an ingredient in the injectable formulation that is not present in the oral formulation; significant scar tissue; a dermatologic condition that substantially limits the safe use of injection sites; or a physical, visual, or functional impairment that prevents safe self-injection (e.g., severe arthritis, neurologic impairment or limited dexterity).

Please note that use in obesity without the diagnosis of type 2 diabetes mellitus will not be considered. Combination therapy with other GLP-1 receptor agonists will not be eligible for consideration.

Diagnosis: _____

Please provide a detailed clinical rationale for why injectable semaglutide cannot be used for this patient:

Dose of maximally tolerated metformin: _____

Dates of maximally tolerated metformin use: _____

Most recent HbA1c (within the last 3 months): _____
